This book is the definitive guide to the facts and legends that inspired the May 2008 movie *Indiana Jones and the Kingdom of the Crystal Skull*. The book follows Chris Morton and Ceri Louise Thomas on their journey of discovery from the ancient temples of the Maya to the British Museum, the Smithsonian, and to the crystal laboratories of Hewlett-Packard, where scientific tests on one of the skulls--made from the same quartz crystal used in today's computers--lead to the conclusion, "This skull shouldn't even exist." Their journey also leads to Native shamans and elders who reveal the sacred knowledge and vital information that these skulls hold about coming Earth changes and humanity's imminent destiny.
