Learning Spark: Lightning-Fast Big Data Analysis Holden Karau, Andy Konwinski, Patrick Wendell, Matei Zaharia

Data in all domains is getting bigger. How can you work with it efficiently? **Recently updated for Spark 1.3**, this book introduces Apache Spark, the open source cluster computing system that makes data analytics fast to write and fast to run. With Spark, you can tackle big datasets quickly through simple APIs in Python, Java, and Scala. This edition includes new information on Spark SQL, Spark Streaming, setup, and Maven coordinates.

Written by the developers of Spark, this book will have data scientists and engineers up and running in no time. You'll learn how to express parallel jobs with just a few lines of code, and cover applications from simple batch jobs to stream processing and machine learning.

- Quickly dive into Spark capabilities such as distributed datasets, in-memory caching, and the interactive shell
- Leverage Spark's powerful built-in libraries, including Spark SQL, Spark Streaming, and MLlib
- Use one programming paradigm instead of mixing and matching tools like Hive, Hadoop, Mahout, and Storm
- Learn how to deploy interactive, batch, and streaming applications
- Connect to data sources including HDFS, Hive, JSON, and S3
- Master advanced topics like data partitioning and shared variables

From reader reviews:

Reginald Hunter:

This Learning Spark: Lightning-Fast Big Data Analysis are generally reliable for you who want to certainly be a successful person, why. The reason why of this Learning Spark: Lightning-Fast Big Data Analysis can be on the list of great books you must have is giving you more than just simple looking at food but feed a person with information that possibly will shock your before knowledge. This book is definitely handy, you can bring it all over the place and whenever your conditions both in e-book and printed types. Beside that this Learning Spark: Lightning-Fast Big Data Analysis giving you an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we know it useful in your day pastime. So , let's have it and enjoy reading.

Alva Sexton:

Reading a reserve can be one of a lot of exercise that everyone in the world loves. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a guide will give you a lot of new info. When you read a book you will get new information due to the fact book is one of various ways to share the information or their idea. Second, studying a book will make a person more imaginative. When you looking at a book especially fictional book the author will bring that you imagine the story how the people do it anything. Third, you can share your knowledge to other individuals. When you read this Learning Spark: Lightning-Fast Big Data Analysis, you could tells your family, friends along with soon about yours reserve. Your knowledge can inspire different ones, make them reading a book.

Debra Durso:

Reading a e-book tends to be new life style on this era globalization. With reading you can get a lot of information that may give you benefit in your life. Having book everyone in this world can certainly share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their own reader with their story or their experience. Not only the storyplot that share in the publications. But also they write about the ability about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on this planet always try to improve their talent in writing, they also doing some exploration before they write to the book. One of them is this Learning Spark: Lightning-Fast Big Data Analysis.

Alta Favors:

Are you kind of busy person, only have 10 as well as 15 minute in your day to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short time to read it because all this time you only find reserve that need more time to be examine. Learning Spark: Lightning-Fast Big Data Analysis can be your answer since it can be read by you who have those short spare time problems.
