### **Sexual Sites, Seminal Attitudes (Studies on Contemporary South Asia series)**

This book situates current research into the sexual cultures of South Asia within a cross-cultural perspective. The book argues that in societies undergoing rapid social and cultural change, the construction of sexuality and the discourses that gather around it have a fundamental connection with an entire range of processes - social, cultural, economic, political and global - with which people must engage. The contributors have studied sexuality as a site around which social and cultural ideas may be expressed.
