## **Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature** William Joseph Bray

Written by a Physicist with 20 years in Neuro-science Medical Research who has experienced numerous medically documented NDEs. The book describes in depth and detail the mysteries of quantum physics and its relationship with consciousness, the fact that we 'paint the universe into being,' using the NDE to bridge the gap between infinite consciousness and this finite reality and provides for the first time a working definition for consciousness that satisfies all of the requirements in quantum physics and consequently every religion of man, in terms specifically accessible to the lay reader; and goes on to explain in detail 'how we do it,' how we control time itself by our perception and awareness, how we manipulate the four forces of nature and infinite energy to 'paint the universe into being,' and have done so since before the creation of this universe itself. The working definition in question simply requires consciousness to be unique and infinite in duration and scope, the evidence of this expressed in terms that challenges the scientific community to find an irrefutable counter argument, which is unlikely, leaving this finite universe to be infinitesimal, to the extent that it does not truly exist, merely an experience of perception that we ourselves define, an extension of ourselves, a 'construct.' Modern mainstream physics has in some cases departed from this original view of the founders of quantum physics who expected future generations to find this working definition for consciousness in order to complete a model that describes a universe interdependent with 'us.' These alternative views that attempt to eliminate consciousness from the equations are described in detail and an explanation in exacting terms where and why they fall short is provided. Although the details of quantum physics have been out of reach for the lay reader to date, the actual details are explained and the math described in terms most anyone can understand. The various paradoxes are described and investigated in detail and upon utilizing this working definition for consciousness that requires infinite unique existence these paradoxes simply 'go away.' Interestingly, these paradoxes extend to philosophy and religion, and using the same definition for infinite unique consciousness even the most unanswerable religious paradoxes disappear; seemingly unanswerable questions such as 'if there is a God why is there so much suffering in the world?' Because you are not here, this is merely a perception, it is not really happening... Being a unique infinite being, you therefore reside in an infinite domain, not this finite universe; you cannot fit an infinite thing inside of a finite 'box.' There have been many attempts by various authors to find these relationships in quantum physics literally filling the bookshelves attempting to validate or construct entire psycho-spiritual belief systems that seem appealing to the lay reader. Unfortunately, since none of them to date have been physicists, their understanding of the science and the vocabulary has been misconception and unintentionally misleading. The corrections to these misconceptions and urban myths are provided as well as dismissing misconceptions and urban myths in science, rather direct and irreverently. But when the correct usage and understanding of quantum physics and its relationship with infinite unique consciousness is applied, an answer does come out of it, an answer far greater in scope than anything written to date. It defines a 'self' that 'paints the universe into being,' beyond our previous conceptions of our own nature and extends to all life, everywhere. There is a lot of not main stream thinking in science presented here, hypothetical, and speculative, but presented as such. The foundations for these are clearly referenced and easily accessible.

### **From reader reviews:**

#### **Greg Wilson:**

This book untitled Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature to be one of several books that will best seller in this year, honestly, that is because when you read this reserve you can get a lot of benefit in it. You will easily to buy that book in the book retailer or you can order it via online. The publisher in this book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Smartphone. So there is no reason to you personally to past this e-book from your list.

#### **Michael Decker:**

Reading a book tends to be new life style in this particular era globalization. With studying you can get a lot of information which will give you benefit in your life. Together with book everyone in this world could share their idea. Guides can also inspire a lot of people. Lots of author can inspire their reader with their story or their experience. Not only the story that share in the guides. But also they write about the knowledge about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors in this world always try to improve their expertise in writing, they also doing some research before they write to their book. One of them is this Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature.

#### **Rex Pelkey:**

Do you have something that you prefer such as book? The reserve lovers usually prefer to choose book like comic, small story and the biggest the first is novel. Now, why not striving Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature that give your enjoyment preference will be satisfied through reading this book. Reading behavior all over the world can be said as the means for people to know world better then how they react in the direction of the world. It can't be claimed constantly that reading habit only for the geeky man or woman but for all of you who wants to end up being success person. So , for all you who want to start examining as your good habit, you may pick Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature become your personal starter.

#### **Mark Guerrero:**

Publication is one of source of understanding. We can add our expertise from it. Not only for students and also native or citizen will need book to know the change information of year to help year. As we know those books have many advantages. Beside most of us add our knowledge, also can bring us to around the world. By the book Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature we can take more advantage. Don't you to definitely be creative

people? To become creative person must prefer to read a book. Just choose the best book that suited with your aim. Don't end up being doubt to change your life at this book **Eight Years Four Months - The Relationship between Quantum Physics, Consciousness, Near Death Experiences, and our Eternal Nature**. You can more attractive than now.
