Memories of Ancient Israel: An Introduction to Biblical History--Ancient and Modern

Philip R. Davies

Memories of Ancient Israel: An Introduction to Biblical History--Ancient and Modern Philip R. Davies

Recent years have seen an explosion of writing on the history of Israel, prompted largely by definitive archaeological surveys and attempts to write a genuine archaeological history of ancient Israel and Judah. The scholarly world has also witnessed an intense confrontation between so-called minimalists and maximalists over the correct approach to the historicity of the Bible. *Memories of Ancient Israel* looks at the issues at stake in biblical history--the ideologies involved, the changing role of archaeology, and the influence of cultural contexts both ancient and modern. Philip Davies suggests a different way of defining the problem of "reliability" and "historicity" by employing the theory of cultural memory. In doing so, he provides a better explanation of how ancient societies constructed their past but also a penetrating insight into the ideological underpinnings of today's scholarly debates.
