Robert M. Adams's celebrated translation of *Utopia* has been meticulously revised for the Second Edition of this Norton Critical Edition as have the accompanying annotations.

"Backgrounds" is designed to assist student readers in an appreciation of *Utopia* by shedding light on the different points of view contemporary with More's work. Included are new selections from Saint Benedict and Tasso, as well as a medieval satire on the land of Cockayne. "The Humanist Circle", a carefully chosen selection of letters, includes another important contribution by Erasmus.

"Criticism" includes five new thought-provoking essays by Alistair Fox, Edward L. Surtz, G. R. Elton, Northrop Frye, and Robert M. Adams. Also new are selections from two modern anti-utopias or quasi-utopias?Aldous Huxley's *Brave New World* and B. F. Skinner's *Walden Two*?plus a selection from Edward Bellamy's once futuristic but now almost contemporary *Looking Backward*, which may be compared and contrasted with More's masterpiece.

An updated Selected Bibliography is also included.
