FANTASTIC Book with Easy Step-by-Step Guide to Reading Music ... and MORE! June 6, 2014

The author did a TREMENDOUS job of explaining a SIMPLE way to read Music. The Step-by-Step method of instruction provides an excellent way to learn the important aspects of reading Music to be able to actually play the musical notes on the piano properly.

There are also four detailed Charts presented in a clear and concise manner. Additionally, I really appreciated the section of Definitions with over 100 Musical Terms that helped refresh my memory! The information in the Charts and the vocabulary of the language of Music in the Definitions is of great value.

An Active Table of Contents and clear professional Illustrations compliment this well written Kindle book. I look forward to reading additional books as this author is definitely an EXPERT on the subject.

As such, I wholeheartedly and Highly Recommend with a 5 STAR Rating!

EXCELLENT detailed explanation of the extremely important Circle of 5ths!

By Abele

The Circle of 5ths is clearly explained in great detail with words AND illustrations, which makes this an EXCELLENT book. The author has done a splendid job of clarifying a difficult subject in a simplistic way for ease of understanding.

It is a concise learning tool as well as a solid reference book. Understanding the Circle of 5ths is extremely important for those who desire to play the Piano in various Keys without struggling.

This Kindle book is well formatted and has an active Table of Contents. The illustrations are very clear and it reads easily. I found it to be quite enjoyable in addition to being very educational.

Highly recommended with a 5 Star Rating!

Many students want to understand music theory but often times they do not know how to focus nor where to focus to get to the main point.

Both of these books are targeted to put the FOCUS in its central points so that all beginners will find it easy to learn and absorb the material with much fun. At the same time, intermediate and advanced music students find these two books outstanding to help them understand music theory even better.

When these 2 music books hit the best seller music books in Amazon, I decided to compile them together into a Bundle of 2 so that many more people can have both of these copies at their finger tips.
