Allan Burns

Thematic Guide to American Poetry: Allan Burns

This unique poetry resource offers interpretations of 250 poems, representing the work of 86 poets from a wide spectrum of historical, contemporary, ethnic, and canonical writers. Organization of this volume facilitates easy access to information on poetry for users' individual purposes. The main section of the guide contains narrative essays on 21 alphabetically arranged themes that recur throughout the rich history of American poetry.

In each section, the explications of individual poems are arranged chronologically to trace the evolution of a particular theme over time. Educators teaching thematic units will find relevant essays here appropriate as either background presentation, discussion ideas, or student assignments. Following each entry, the poems are listed with information about the anthologies in which they may be found. Most of the abbreviations used here correspond to the codes used in *The Columbia Granger's Index to Poetry in Anthology*, familiar to most librarians. This guide is ideal for librarians and teachers who need to identify and locate poems on a given theme, and for students and lovers of poetry who wish to enrich their understanding of the thematic meanings of poems.
