Multiobjective Problem Solving from Nature: From Concepts to Applications (Natural Computing Series)

Multiobjective Problem Solving from Nature: From Concepts to Applications (Natural Computing Series)

This text examines how multiobjective evolutionary algorithms and related techniques can be used to solve problems, particularly in the disciplines of science and engineering. Contributions by leading researchers show how the concept of multiobjective optimization can be used to reformulate and resolve problems in areas such as constrained optimization, co-evolution, classification, inverse modeling, and design.
