#### **Michael Thompson:**

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library or to make summary for some book, they are complained. Just very little students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that studying is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Numerical Methods for Engineers can make you truly feel more interested to read.
