**Do you want to take blue pill, or do you want to survive?**

*This is the book that will help you separate the truth from the lies.*

Sadie Timpson, a holistic therapist, is at a beach house with family members celebrating her daughter's college graduation, when an argument erupts over whether or not a global force known as the NWO, or the Illuminati, controls their lives.

The disagreement centers on whether it is best to remain happy and ignorant, or knowledgeable and prepared. Sadie's children insist on the former point of view, leaving her unable to share the things she knows with them.

After they've dispersed, Sadie gathers her response in a letter. As her thoughts on how our health, political system, and religions have been tampered with, and what to do about it, pours forth, the letter grows, and becomes not a treatise with footnotes and indexes, but a missive of love from a mother's heart.

A Mother's New World Order (NWO) Handbook is a wake-up call to all the world's children and their parents and is to be used as a jumpstart to learning.
