Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science)

On behalf of the Program Committee, it is our pleasure to present the proceedings of the 11th International Symposium on Recent Advances in Intrusion Detection (RAID 2008), which took place in Cambridge, Massachusetts, USA on September 15–17. The symposium brought together leading researchers and practitioners from academia, government and industry to discuss intrusion detection research and practice. There were six main sessions presenting full-length research papers (rootkit prevention, malware detection and prevention, high performance intrusion and evasion, web application testing and evasion, alert correlation and worm detection, and anomaly detection and network traffic analysis), a session of postersonemergingresearchareasandcasestudies,andtwopaneldiscussions (“Government Investments: Successes, Failures and the Future” and “Life after Antivirus - What Does the Future Hold?”). The RAID 2008 Program Committee received 80 paper submissions from all over the world. All submissions were carefully reviewed by at least three independent reviewers on the basis of space, topic, technical assessment, and overall balance. Final selection took place at the Program Committee meeting on May 23rd in Cambridge, MA. Twenty papers were selected for presentation and publication in the conference proceedings, and four papers were recommended for resubmission as poster presentations. As a new feature this year, the symposium accepted submissions for poster presentations, which have been published as extended abstracts, reporting gear-stage research, demonstration of applications, or case studies. Thirty-nine posters were submitted for a numerical review by an independent, three-person subcommittee of the Program Committee based on novelty, description, and evaluation. The subcommittee chose to recommend the acceptance of 16 of these posters for presentation and publication.

From reader reviews:

Susan Velez:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite e-book and reading a publication. Beside you can solve your long lasting problem; you can add your knowledge by the guide entitled Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science). Try to make book Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science) as your pal. It means that it can for being your friend when you feel alone and beside that of course make you smarter than before. Yeah, it is very fortunated for you personally. The book makes you a lot more confidence because you can know everything by the book. So , we need to make new experience along with knowledge with this book.

Nancy Martindale:

Reading a reserve tends to be new life style in this particular era globalization. With looking at you can get a lot of information that can give you benefit in your life. With book everyone in this world can share their idea. Books can also inspire a lot of people. Lots of author can inspire their reader with their story or maybe their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors on earth always try to improve their skill in writing, they also doing some analysis before they write on their book. One of them is this Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science).

Ariane Swanson:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some guide, they are complained. Just tiny students that has reading's soul or real their passion. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that examining is not important, boring and also can't see colorful pics on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science) can make you truly feel more interested to read.

Wesley Mansour:

What is your hobby? Have you heard that question when you got learners? We believe that that issue was given by teacher for their students. Many kinds of hobby, Every individual has different hobby. And you know that little person like reading or as studying become their hobby. You need to know that reading is very important as well as book as to be the matter. Book is important thing to increase you knowledge, except your own teacher or lecturer. You get good news or update with regards to something by book. Numerous books that can you take to be your object. One of them is niagra Recent Advances in Intrusion Detection: 11th International Symposium, RAID 2008, Cambridge, MA, USA, September 15-17, 2008, Proceedings (Lecture Notes in Computer Science).
