Robot Control 2000 (SYROCO'00) (2-volume set): A Proceedings volume from the 6th IFAC Symposium, Vienna, Austria, 21 - 23 September 2000 Peter Kopacek

This Proceedings contains the papers presented at the sixth IFAC Symposium on "*Robot Control 2000 - SYROCO 00*", held in Vienna, Austria, on 21- 23 September 2000.

The contributions cover the whole field of robot control starting with the classical subjects like non-linear, robust and hybrid control, force and tracking control, modelling and identification, simulation and education, neural and fuzzy control. But new robot applications require new robot concepts and new control tasks. In consequence most of the contributions deal with mobile, intelligent robots and multiple robot systems but also new applications like disassembly. One of the fastest growing fields in the last three years is development and control of robots for entertainment, leisure and hobby.

In four survey papers the state of the art in robot control and further developing trends were emphasised. Because the field of robotics is growing up today in smaller countries two presentations deal with robots in Brazil and Macedonia. The very important field of sensor fusion and an industrial view of future developments in robot control were also topics of survey papers.

From reader reviews:

Donald Campbell:

What do you ponder on book? It is just for students since they're still students or this for all people in the world, the particular best subject for that? Just simply you can be answered for that concern above. Every person has distinct personality and hobby for every other. Don't to be pressured someone or something that they don't want do that. You must know how great and important the book Robot Control 2000 (SYROCO'00) (2-volume set): A Proceedings volume from the 6th IFAC Symposium, Vienna, Austria, 21 - 23 September 2000. All type of book could you see on many sources. You can look for the internet sources or other social media.

Christopher Sanchez:

Nowadays reading books become more and more than want or need but also work as a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the particular information inside the book this improve your knowledge and information. The information you get based on what kind of publication you read, if you want send more knowledge just go with education and learning books but if you want experience happy read one together with theme for entertaining for example comic or novel. The particular Robot Control 2000 (SYROCO'00) (2-volume set): A Proceedings volume from the 6th IFAC Symposium, Vienna, Austria, 21 - 23 September 2000 is kind of publication which is giving the reader unforeseen experience.

Jeremy Gable:

Spent a free time to be fun activity to try and do! A lot of people spent their down time with their family, or their particular friends. Usually they undertaking activity like watching television, gonna beach, or picnic within the park. They actually doing same thing every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Could possibly be reading a book is usually option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to test look for book, may be the book untitled Robot Control 2000 (SYROCO'00) (2-volume set): A Proceedings volume from the 6th IFAC Symposium, Vienna, Austria, 21 - 23 September 2000 can be fine book to read. May be it might be best activity to you.

Sally McGarvey:

People live in this new day time of lifestyle always try to and must have the spare time or they will get wide range of stress from both everyday life and work. So , if we ask do people have time, we will say absolutely indeed. People is human not a robot. Then we consult again, what kind of activity do you have when the spare time coming to a person of course your answer may unlimited right. Then do you ever try this one, reading books. It can be your alternative in spending your spare time, the actual book you have read is Robot Control 2000 (SYROCO'00) (2-volume set): A Proceedings volume from the 6th IFAC Symposium, Vienna,

Austria, 21 - 23 September 2000.
