World War 2: Axis Generals: Famous Axis Generals that Dominated the Battlefields of WWII (World War 2, World War II, WW2, WWII, Axis Generals, Rommel, Adolf Hitler Book 1) Ryan Jenkins

Get to know The Infamous Axis Generals of WWII

Soldiers need strong leaders especially in times of war. They need to be led by someone who is cunning, decisive, and inspiring. During WWII there was inspiration to be found on all fronts, from the Allied to the Axis forces. This book takes a look at some of the Generals that may have turned the tide of the war, if only temporarily, through their cunning and daring. They inspired their men and maybe they will inspire you as well.

There is the Japanese Admiral that led his men to victory, challenging them to new and innovated strategies. He even opposed attacking the United States, citing that a long term war would be a disaster. Find out where he gained his knowledge of American military abilities.

Even the Germans had their share of leaders. Read about the Desert Fox that may have been our enemy but won the respect of many for his treatment of prisoners and his cunning actions on the battlefield. Had he been allowed to, he may have won the war. Find out how he met his tragic end and what he had to do with a conspiracy to assassinate Hitler himself.

Their stories are inspirational. Read about their victories, their defeats and their struggles. Each faced great personal adversity and at times even struggled to be loyal to their countries. If you ever wondered what happened on the upper levels of war, this is the perfect book for you.

Comments From Other Readers

“I was really surprised when I read this to find that the focus was on non-Allied generals. At first it sort of made me have second thoughts about reading this but the style was done really well. I liked seeing a glimpse of the personal lives and emotions of men who probably had to put on a serious face to their own men. I really like the information about Rommel. He seemed to be a very no nonsense soldier that took his job very seriously. I found that the author did a great job with differentiating the Hollywood myth from the reality of the men. I can't wait to read more of these books!” - Jarred D (Missouri, USA)

“I couldn't put this book down. I don't really like history but I grabbed this because I'm taking a history class for school right now. I'm looking for stuff that I can use to cite in my paper and stumbled across this book. I meant to skim it for information and then forget it but I couldn't put it down. The story lines are awesome and I loved stepping to the lives of these people in the book. It was a great history lesson. I just

wish all my reading assignments could be this fun” - Monica K. (Texas, USA)
