**The World of Jesus and the Early Church: Identity and Interpretation in Early Communities of Faith**  
Prominent scholars in the fields of Archaeology, New Testament Studies, and the Dead Sea Scrolls have come together in "The World of Jesus and the Early Church" to focus on early Jewish and Christian communities of faith and their impact on the collections of texts that were their scriptures (and would become, in due time, part of their various canons). Professors, students, and pastors who are interested in how these communities lived--how they developed, what they believed, and how they regarded and preserved the written documents that were their scripture--will be interested in this comprehensive volume drawn from presentations made to key conferences on the subject. This book's emphasis on a variety of communities of faith (not just Christian) and their early (and critical) influence on the development of religious canonical materials sets it apart from others on New Testament-period culture.
