Tristan Clark

Edward VII: From Playboy Prince to Uncle of Europe (Very Short History Book 16) Tristan Clark
Edward VII was easily dismissed in his younger years as a philanderer and pleasure-seeker. However, the Prince of Wales surprised everyone when he became king, developing into an intelligent and pragmatic ruler, who dragged the monarchy into the twentieth century following years of cloistered secrecy at the end of his mother's reign.

He claimed a number of successes in the area of foreign policy in particular, where his family connections helped him to navigate the intricate web of alliances that held together the ruling houses of Europe. Historians and biographers have perhaps inevitably focused more on the dalliances, scandals and bed-hopping than his significant political achievements; this very short history redresses the balance, uncovering the scandals while also examining the political achievements of Edward VII's life.

The Very Short History series gives the reader a clear, concise, and very short, account of the people and events that have shaped world history. Each book provides an entertaining and engaging narrative, allowing the reader to master the subject in the shortest time possible.
