Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering)

Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering)

Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering)

This state-of-the-art survey, reflecting on the teaching of programming, has been written by a group of primarily Scandinavian researchers and educators with special interest and experience in the subject of programming. The 14 chapters - contributed by 24 authors - present practical experience gathered in the process of teaching programming and associated with computing education research work. Special emphasis is placed on practical advice and concrete suggestions. The authors are all members of the Scandinavian Pedagogy of Programming Network (SPoP), and bring together a diverse body of experiences from the Nordic countries. The 14 chapters of the book have been carefully written and edited to present 4 coherent units on issues in introductory programming courses, object-oriented programming, teaching software engineering issues, and assessment. Each of these individual parts has its own detailed introduction. The topics addressed span a wide range of problems and solutions associated with the teaching of programming such as introductory programming courses, exposition of the programming process, apprentice-based learning, functional programming first, problem-based learning, the use of on-line tutorials, object-oriented programming and Java, the BlueJ environment to introduce programming, model-driven programming as opposed to the prevailing language-driven approach, teaching software engineering, testing, extreme programming, frameworks, feedback and assessment, active learning, technology-based individual feedback, and mini project programming exams.

From reader reviews:

Gregory Jager:

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each e-book has different aim or perhaps goal; it means that reserve has different type. Some people sense enjoy to spend their time to read a book. They are reading whatever they take because their hobby is actually reading a book. Consider the person who don't like examining a book? Sometime, individual feel need book if they found difficult problem as well as exercise. Well, probably you will require this Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering).

Scott Schiller:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a wander, shopping, or went to the Mall. How about open as well as read a book eligible Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering)? Maybe it is being best activity for you. You recognize beside you can spend your time using your favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have additional opinion?

George Hoffman:

The book Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering) can give more knowledge and also the precise product information about everything you want. So why must we leave a good thing like a book Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering)? Some of you have a different opinion about e-book. But one aim this book can give many data for us. It is absolutely appropriate. Right now, try to closer using your book. Knowledge or information that you take for that, you can give for each other; you could share all of these. Book Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering) has simple shape nevertheless, you know: it has great and large function for you. You can appear the enormous world by available and read a book. So it is very wonderful.

Mario Davis:

Beside this Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering) in your phone, it could give you a way to get closer to the new knowledge or facts. The information and the knowledge you might got here is fresh through the oven so don't become worry if you feel like an outdated people live in narrow commune. It is

good thing to have Reflections on the Teaching of Programming: Methods and Implementations (Lecture Notes in Computer Science / Programming and Software Engineering) because this book offers to you personally readable information. Do you oftentimes have book but you don't get what it's facts concerning. Oh come on, that wil happen if you have this inside your hand. The Enjoyable option here cannot be questionable, including treasuring beautiful island. So do you still want to miss the item? Find this book along with read it from at this point!
